

From Mexico.
By the arrival at New York of the Black Warrior, we are placed in possession of the following items of Mexican news:
In the Havana journals received up to the 9th of August, is found the following synopsis of matters in Mexico, the date from the capital being up to the 4th of August.
Guantanamo had shown some symptoms of disorder, which was suppressed, as were also other lighter indications exhibited in Zacoatecas.
The government journal, *Diario del Gobierno*, had thought proper to refute the absurd rumors of diplomatic mysteries spread abroad by the enemies of Mexico, with the attempt to bring into disrepute the healthily conservative principles prevailing over her present situation.
The following despatch has been published by Santa Anna:
"Art. 1. The Mexicans who, passing to the other side of the boundary line, have taken arms against the republic, have invaded it any point, have attacked the towns, or committed any acts of depredation or violence, are declared traitors, and are forever banished from the national territory.
"Art. 2. Carvajal, and the Mexicans who accompanied him in his invasions, are declared banished forever from the territory of the republic, and unworthy of the Mexican name.
"Art. 3. Any of those comprised in the foregoing articles who may be apprehended in the territory of the nation will be tried by court-martial, and punished with the penalty of death."
The *Universal*, writing of the disorders in Guadalupe, says:
"We have pleasure in announcing to our readers that in the capital of Guadalupe there occurred a result which, though without any political character, was still the cause of disturbing public order. Order has been entirely re-established since the Governor, after having quelled the disorders who had made him prisoner, effected the return to order of part of his forces, and with that portion overcame the rest, making a great number of prisoners and seizing on six pieces of artillery which the insurrectionary party had."
The Secretary of State has written to the Governors of the frontier States, directing them to furnish him with estimates, duly certified, of the losses sustained by Mexicans in consequence of the disorders in the State of Guadalupe Hidalgo, which bound them to repress the incursions of the Indians.
Several bankruptcies had occurred among mercantile houses in the interior. The principal were Arvide & Co., of Zacatecas, for \$121,000; Valenzuela & Suarez, of Silao, for \$80,000; Villanueva, of Guadalupe, for \$80,000.
RATHER COOL FOR THE SEASON.—On Monday night two thieves forced the collar-door of A. M. Fuller, No. 36 Portland street, and by going through the collar got into his bar-room, when taking the money-lift and its contents, some \$17 in change, they retraced their way back. Seating themselves upon the steps in front of the house they commenced the operation of counting and dividing the plunder.
Fuller awakened at the noise they made, thrust his head from a window, and the door, and demanded what they were about. They coolly told him it was none of his business. "You have been into my bar, haven't you?" said he. "Yes," "And got my change?" "Yes," "Well, let me have it, and I'll give you bills for it; change is at a premium." "No, sir," "Well, then," said Fuller, growing magnanimous, "in the language of the man in Congress, Go home, you you, where you belong?" They immediately went.

MARRIAGES OF LOVE AND CONVENIENCE.—"Everywhere, but in novels," says a recent writer, "the marriage of convenience has proved an excellent institution, while what are called love matches have been, are, and ever will be, prolific of misery." We should like to see the impudent old fog who said that—if it were only to tell him to his teeth that the lie—the lie like the telegraph—like a lawyer—like a steamboat—like a railroad—like the prospectus of a new magazine!" So "marriages of convenience" are better than love matches, are they? Do you know that love is all that can make marriage honest, or even decent? That marriage without love is a stench in the nostrils of God and men? That love is heavenly in its origin, divine in its influence, and glorious in its enjoyment? While "convenience"—which is but a smooth gloss for or avarice, or the profligate parent of the most execrable of crimes, wrangling, discord and divorce? Of course you don't! but every man of sense and observation knows that the mistakes of youth and romance in their matrimonial alliances are light and unimportant compared with the coldly-planned blunders and cautiously-concocted disasters of sagacious bachelors of fifty, and weary spinsters of thirty-five.—Boston Post.

BY TELEGRAPH.
Arrival of the Humboldt—Later from Europe.
The Turkish Difficulties not Settled.
New York, August 15.—The Humboldt arrived this afternoon at five o'clock. She brought one hundred and eighty-six passengers.
It was feared that the Emperor of Russia would decline to withdraw his forces from the principalities, as stipulated in the proposition made by the three powers. The English and French fleets would then be ordered to pass the Dardanelles, and a peaceful settlement of the difficulty would be greatly jeopardized.
A telegraphic despatch from Constantinople dated the 20th states that the Porte and the representatives of the great powers had accepted the propositions of the Austrian Minister, which arranged that the English and French fleets should withdraw from Besika bay, whilst Russia evacuated the Danubian provinces. Turkey would then send an ambassador to open new negotiations with St. Petersburg.
The *Morning Chronicle* reaffirms the declaration that the United States had offered to the Porte money and active forces.
A decline in the funds has been caused at Paris and London by an article in the *Constitutionnel* declaring that France and England would not consent to the arrangement which had been proposed at Constantinople.
Great uneasiness had been created by the news of a decree by the Czar ordering a fresh levy of recruits throughout the empire; this was interpreted as a war measure.
LATER.
Moldavia had declared itself independent of the Porte, and refused to pay further tribute. A similar movement is expected in Wallachia.
It is asserted that the Porte intends addressing an ultimatum to Russia, in which, after paying due regard to the rights of the Sultan's Christian subjects, that sovereign declares that if, in spite of this repeated assurance, the Czar should persist in offering war, the Porte is resolved to accept it, but that the responsibility must be with Russia.
The above document, it is further asserted, has been communicated to the Ambassadors from France and England.
Orders have been sent to Hospodars of Moldavia and Wallachia, commanding them to quit those principalities and retire to the right bank of the Danube.
Important from Buenos Ayres.
New York, August 15.—By an arrival here we have later advice from Buenos Ayres. The blockade was raised at Montevideo about the 20th June, and the fleet gone over to Buenos Ayres. The ship *Clarendon*, for San Francisco, had put into Montevideo, previous to 5th July, leaving. Also the ship *Bowditch*, leaving.
The Yellow Fever in New Orleans.
NEW ORLEANS, August 13.—The ravages of the fever continue unabated, and there is no check to its unprecedented fatality. The number of deaths up to 12 o'clock at noon to-day has been 200 of yellow fever alone.
[SECOND DESPATCH.]
NEW ORLEANS, August 13.—The total number of deaths in the city, according to the official report of the Board of Health, for the past week, ending at 6 o'clock on Friday evening, is fifteen hundred and eighteen, of which twelve hundred and seventy-seven were from yellow fever, being an increase over last week from all diseases of three hundred and ninety-eight. Nearly every person who possibly could, has left the city for different parts of the country. Indeed, scarcely enough are left to bury the dead. Should the fever continue much longer, there will be no victims for it to feed upon.
[THIRD DESPATCH.]
NEW ORLEANS, August 14.—The report of the Board of Health for the past twenty-four hours ending on Saturday morning, exhibits 174 deaths, of which 153 were from yellow fever. The scourge is still on the increase, though the deaths not quite so large for want of victims.
Tremendous Thunder Storm.
BOSTON, August 15.—A terrible thunderstorm occurred in this city and vicinity this morning. At Georgetown the Baptist parsonage house was struck, and the wife of the Rev. Mr. Russell, the pastor, instantly killed. Strange to say, a child in her arms escaped injury. At Groveland, the house of William Fowler was struck and his wife killed. At Newburyport, a barn was struck at Byfield and destroyed. Several houses at Lowell, Lawrence, Haverhill, &c., were struck and persons injured.
Effects of the Heat.
PHILADELPHIA, August 15.—Abraham Woodside, a celebrated painter, died this morning in Chestnut street from the effects of the heat.
New York, August 15.—The heat in this city yesterday was frightful, the thermometer reaching 102 in the shade! The coroner reported ninety deaths from heat.
Yesterday afternoon, a printer employed at the *Herald* office, named Robert McCurdy, a native of Newry, Ireland, fell dead while working at his frame. His death was caused by the overpowering effects of the heat.
In Brooklyn, the number of deaths yesterday caused from the heat was twenty-eight, nearly all of which were from heat in New York City, according to the population, by nearly three to one.
Condition of the Ohio River.
PITTSBURGH, August 15.—There are forty-three inches of water in the Ohio river to-day, and rising.
Arrival of the Cutter Madison.
BOSTON, August 15.—The revenue cutter *Madison* has arrived here from a surveying cruise.
Markets.
New York, August 15.—Flour is steady—sales of 5,250 bbls. at \$5 a bbl for State, \$5 12 a bbl for common to good Ohio, and \$5 50 a bbl for Southern. Wheat is held firmly—sales of 2,500 bushels on private terms. Corn is easier. Sales of 25,000 bushels at 73 for mixed and 74 cents for yellow.
DIED.
In this city, on the 14th instant, at half-past 10 o'clock p.m., after a short illness, Mrs. MARY R. SHOVE, the beloved wife of John Shove, Esq., of this city, in the 41st year of her age.
COLUMBIA TROTTER COURSE.
Alexandria County, Virginia.
ON THURSDAY AFTERNOON, 18th, a purse of \$25 will be given, free for all horses that never trotted for money, one mile and repeat in harness, three or more times a race. Entrance free per cent. Entries to be made with the proprietor before seven o'clock the evening previous to the day of the race.
Also, on the same day, a mat-b for \$150—\$50 a side, and \$50 added by the Proprietor—between George W. Nelson, jr. & SCOTTY, of Philadelphia, to skeleton wagon.
D. Britner's s. c. TRENTON, of Washington, to sulky.
Heats one mile and repeat.
The first race to come off at half-past four o'clock; the other immediately after the termination of the first. In the race between Trenton and Scottie the public may expect to see something worth looking at, and better time than has yet been made on the track.
Omnibuses will start from Brown's Hotel at three and a half o'clock.
Admission fifty cents to the track and stand.
CYRUS MARTIN, Proprietor.

LOCAL MATTERS.
SUMMER LEGISLATION.—In the Board of Common Council, yesterday evening, Mr. Esby, from the Committee on Police, to whom had been referred a memorial from the Trustees of Israel Church, asking for permission to hold a fair, reported a bill granting the prayer, "provided the said fair shall not be continued longer than one week, or kept open each night to a later hour than half-past eleven o'clock."
For a better understanding of the subject, it should be stated that the Trustees of Israel Church are colored men, and that there is a law of the Corporation which prevents all negroes and mulattoes from being in the streets after ten o'clock, or having any public entertainment or meeting, with the exception of those who are provided with permits or "passes" from responsible white persons.
When we entered the chamber of the Common Council a warm discussion was in progress, and Dr. Miller was specially replying to Mr. Pepper, the independent member from the Fourth Ward, who it appears had made use of the word "farcy" in a connection which was disagreeable to the taste of our professional friend. We took no notes, but something like the following occurred:
Mr. PEPPER arose, rather excited: "I will allow no gentleman," he said, in an emphatic manner, "to state falsely concerning me. I said I hoped the Board will show that what you said in opposition to this bill will prove a fact. That's what I said, sir."
Dr. MILLER, (with much earnestness.) "I am not in the habit of quoting gentlemen falsely. I stated these bills were farces. There is an act which contains penal enactments for negroes being out after hours, and yet, from day to day, you repeal it by special enactment, such as that now before the Board."
The Doctor then "came down" heavily on the free colored population, whose condition he described as in no way whatever to be envied.
Dr. BUSBY, another professional gentleman, took part in the debate. He lived in the Fifth Ward, he said, and the Israel Church, which is down by the Capitol, is a "nuisance." [Laughter.] Crowds of negroes there who line the pavement, make white ladies and other white persons give way for them. He knew only one of the congregation, who is a great rascal. He repeated, the church is a nuisance.
Mr. HANSON, from the same ward, did not agree with his colleague, and did not think the negroes of that ward were more impudent than those in any other part of the city. Many of them were respectable and well-behaved.
Mr. PEPPER had another word to say. The mere fact that these people ask permission to hold their fair, shows that they wish to respect the law and be orderly.
It was now six o'clock—the atmosphere of the room sultry, and ice water in great demand. With such a subject, under these circumstances, there was no inducement for the majority to remain; and so the Board wisely concluded to adjourn.
A VETO SUSTAINED.—Last Monday week the Mayor of the city returned to the Board of Aldermen, with his objections, a bill which had passed the Councils and been presented to him for his signature, providing that any person who shall have paid his school taxes and other taxes upon his personal property up to, and who was otherwise qualified to vote at, the last preceding annual election, may vote at any special election to fill vacancies, notwithstanding he may not have paid his taxes for the year in which the same may be held.
Yesterday evening the subject was taken up in the Board of Aldermen; and, on taking the question, "Shall this bill pass, the Mayor's objection to the contrary notwithstanding?" it was decided in the negative—ayes one, (Mr. Fitzpatrick,) nays 8. So the bill was rejected.
CENTRAL WATCH-HOUSE.—The Mayor yesterday evening transmitted to the Board of Aldermen a copy of a communication which he had received from the Captain of the Auxiliary Guard, in relation to the present condition of the Central Watch-house. "This watch-house," the Mayor says, "is unfit for the purposes for which it is used, and I would respectfully recommend that an appropriation be made either to provide another building for the use of the guard, or to make such alterations and repairs to the present building as will render it a fit place for a watch-house."
The following is the communication of the Captain of the Guard:
"WASHINGTON, August 15, 1853.
"Sir: I deem it my duty to acquaint you with the condition of the Central Guard-house. It is unfit for the guard to remain in, as thereby they are subject to contract disease.
"Last night we were compelled to leave it and take shelter in the market-house. We had several prisoners, and had to turn them out for fear they would suffocate. Perhaps the Corporation is not aware that there is a revenue arising sufficient to build a house suitable for that purpose. There was received during the month of June, for fines and costs, \$143 81, and for the month of July, \$139 43. I hope something will be done for the comfort of the guard and also for the prisoners.
"I am, dear sir, yours, &c.,
"JAMES H. BIRCH, Captain A. G."
The papers were referred to the Committee of Police, who we trust will take immediate measures to remedy the nuisance of which complaint is made.
WASHINGTON NATIONAL MONUMENT.—The receipts at the office of the society, in this city, during the month of July, amounted to \$1,122.
At the recent centennial anniversary celebration of Masonry, in Nashville, Tennessee, the "brethren of the mystic tie" subscribed \$451 53 towards the erection of the column.
During the present month a check for one thousand dollars has been received from the agent of the society in New York—the contribution of visitors to the Crystal Palace.
From the first to the thirteenth instant the offerings at the Monument grounds were unusually large—two hundred dollars having been bestowed by strangers, mostly southerners.
The column is now one hundred and thirty-eight feet in height.
TRAVELING NORTHWARD.—From our daily observation at the railroad station, it appears that never before, during the summer, has the travel from the South to the North been so great as it now is; entire families every day appearing among the passengers. The grand and sublime spectacle of Niagara Falls; the sea-shore luxuries of bathing, pure air, and pedestrian and equestrian exercises under hearing of the voice of "old ocean"; the attractions of "the springs," (as much patronized on account of fashionable life as for the healing properties of the waters,) and the pursuit after novelty, are the usual stimulants to the undergoing of tedious journeyings, over dusty roads, and at the expense of the pocket and individual comfort. They who have their rivers of Alabama and Harper must needs go, unbidden, to the waters of Jordan.
The prevalence of the yellow fever in New Orleans, together with the fear that the epidemic may extend widely its boundary of operations, has, doubtless, of late, increased the number of southern travelers; while the attractions of the Crystal Palace, the most prominent of the novelties of New York, have not been altogether omitted from the programme.
INQUESTS.—The coroner, on Sunday morning, held an inquest over the body of William Rein, a German, who on Saturday night fell in the road from exhaustion near the Bladenburg toll-gate, and died of convulsions, superinduced by drunkenness. Verdict accordingly.
Yesterday morning an inquest was held over a mulatto infant, in an alley near the corner of 4th and C streets. The fact elicited was, that it died of the disease with which it was born five weeks ago—an occurrence that does not excite extreme surprise.
MR. PETER F. BACON was yesterday nominated by the Mayor, and confirmed by the Board of Aldermen, as Commissioner of the Centre Market, to fill the vacancy made by the resignation of Mr. John H. Goddard.
KENTUCKY MULES.—A drove of them, truly beautiful young animals, arrived in this city lately, and were exposed for sale at from \$120 to \$150 each; the last named sum securing the pick.
